## Asia's geospatial industry enters the mainstream

The 4th Geo Connect Asia succeeded in breaking new ground as it welcomed **2,785 visitors** from **52 countries** on the 6th and 7th March in Singapore.

Combined with Digital Construction Asia and the newly launched Marine & Hydro Asia shows the mainstreaming of geospatial applications took a leap forward in addressing 12 vertical industries, most relevant to the Southeast Asian economies. The co-location of Drones & Uncrewed Asia enhanced the focus on vital data gathering, processing and sharing.

With the theme, *Geospatial driven impacts: underground, land and sea to sky* the 2024 event also grew its regional footprint with **more than 32.5% of the audience attending from outside Singapore**.

“ We are witnessing the exponential growth and transformative impact of geospatial technology across economies, infrastructure and everyday lives. Geo Connect Asia serves as an excellent platform for industry leaders and stakeholders to build cross-border networks, explore innovative solutions, and propel the geospatial industry forward for a more sustainable and connected future. ”

Scott Simmons  
Chief Standards Officer,  
Open Geospatial Consortium

### Event responses at a glance

**95%**  
“Highly recommended”  
the event

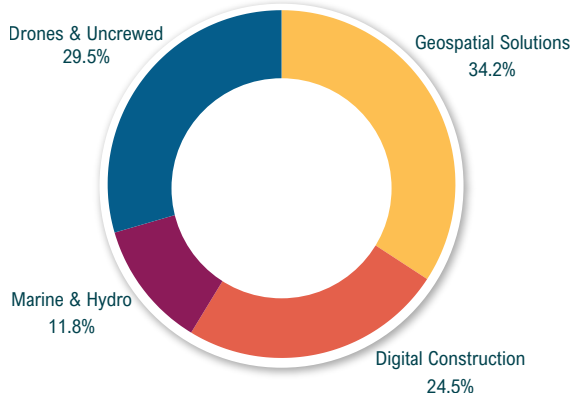

**90%**  
of attendees were satisfied  
with their participation

**90%**  
Rated event as  
above average

**81%**  
of the audience plan  
to return in 2025

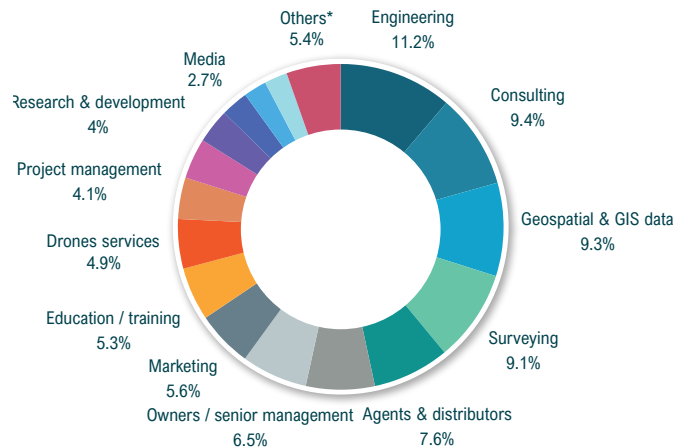

### Visitor interests and profiles

#### Breakdown by product interest

The combination of four industry events under one umbrella offers a crossover of markets and interests.

#### Breakdown by job function

\*Includes these job functions: Surveillance & security, Regulatory & licensing, Facility & asset management, Management services, Purchasing & procurement, Quality control & assurance

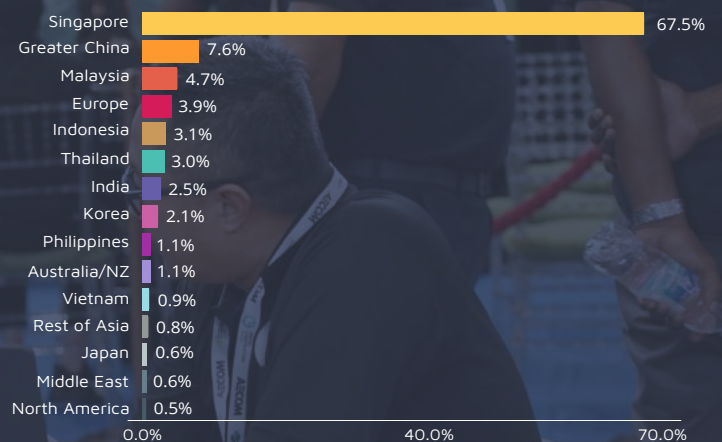

### Source of attendees

**67.5%**  
attended from Singapore

**32.5%**  
attended from  
outside Singapore

**51%** of visitors were primary decision-makers in their organisation

### Breakdown of attendees by country & region

- **Assistant Director (Infra)** Ministry of Home Affairs, Singapore
- **GIS & Survey Expert**, PT Waskita Karya, Indonesia
- **Port Infra Facility Head**, PT Pelab Union Samudera Palawan, Indonesia
- **Deputy Managing- Director**, Infra-Plus, Thailand
- **Geo-Informatics Officer**, GISTDA, Thailand
- **Vice Director of Digital Transformation Center**, Portcruz, Vietnam
- **Head of Spatial Data Office**, Development Bureau, Hong Kong

## Conference numbers, sponsors & testimonials

The series of supporting conferences attracted more than **350 delegates**, following the theme *Geospatial driven impacts: underground, land and sea to sky*.

The conferences were supported by a full programme of Tech Talks, the Trimble Club programme and the 3rd edition of Digital Underground Connect.

Conference Sponsors:

## Conference testimonials

“  
The biggest takeaway from the conference was the recognition of geospatial technology as a pivotal tool in addressing global challenges and driving sustainable development. Discussions emphasised its role in improving life quality through location diagnostics, advancing urban development with nature-based solutions, and accelerating the decarbonisation agenda. Additionally, the conference highlighted the transformative potential of artificial intelligence in construction and the Asia Pacific region's leadership in autonomous aviation.

Cherry Ann Yacat  
Geologist  
Eramen Minerals Inc. Philippines

“  
It is always a great pleasure to meet people face to face from the same industry, to exchange ideas and learn from them. Congratulations on the great event. I am writing a report to share with leading Japanese stakeholders, including MLIT, METI, public agencies and university professors, to encourage their participation in next year.

Naoshige Enohi (Edson)  
Kyoshin Giken Co., Ltd.  
(Tokyo Gas Group Company)  
New Business Development Office

“  
Geo Connect Asia has equipped me with knowledge as to how geospatial plays a part in sustainability and how it can be used to help make better and informed decisions for society.

Ronald Foo Yen Seng  
Director,  
Radian Geomatics PLT, Sabah, Malaysia

“  
Thank you for inviting me to present at Geo Connect Asia. It was invaluable to meet with colleagues from the MoH, SingHealth and the Singapore Land Authority and we are looking to develop relations with them as a direct outcome of the conference.

James Lewis  
Head of Geospatial,  
Data Analytics & Surveillance  
UK Health Security Agency

“  
Geo Connect Asia 2024 was really amazing with new knowledge and experiences, as well as many opportunities for future possible collaboration. I enjoyed it very much and was very proud to be a part of it. Congratulations to the team for a great success.

Assistant Professor  
Nguyen Danh Thao  
University of Technology (HCMUT), VNU-HCM,  
Vietnam

“  
Thank you for this year's Geo Connect Asia. We are truly inspired by the breadth and depth of the topics discussed at the 2024 event. We are hoping that we can have more speakers and captivating content next year.

Donny Darmawan  
Geospatial and Earth Observation-  
Australasia Leader  
ARUP

## Feedback from the show floor

“  
It's been an excellent show and I can say now that we will be back again for the next edition.

Brian Wright  
Managing Director,  
ImpulseRadar

“  
The results exceeded our expectations. The quality of the visitors was excellent, with real decision makers engaged in meaningful discussions and we confidently expect to grow our business as a direct result of exhibiting here. The results have also justified our intention to book a larger stand for 2025.

Amy Uhlhorn  
Marketing and Events Specialist  
Emesent

“  
Exhibiting at Geo Connect Asia was extremely beneficial for our company and has been a really successful marketing tool. We saw many prospective clients and new sales were generated. It provided an excellent platform for good interaction with the industry.

White Qin  
Sales Manager
